

THE POWER OF INFLUENCE

Dr Anthony Earl, an International Guest Speaker from Chicago in the US will be addressing leaders within the Province. He specializes in developing leaders in the Government, Non Government, Business and Faith Based Sector. He launched a programme in 2002 known as the Leadership Empowerment Encounter (LEE) Series which is conducted in South Africa and countries across the Globe. His key focus is on "Building Sustainable Institutions."

Today, Dr Earl is determined to help in changing the current global societal landscape through building strong communities, healthy families and leaders in the midst of a society where such things are rarely seen. Together with other passionate forward thinkers he is influencing countless individuals through a message of hope in the same neighborhood that Anthony once terrorized. His mantra for the men and women whose lives are caught in desperation: There is a better Way.

In his book on leadership, John Maxwell describes leadership with an amazing word, 'Influence'. I have over the years understood "influence to mean the power or the capacity to produce an effect on others."

ECSECC in partnership with ECNGOC and Border Kei Chamber of Business invites you to a Business Breakfast.

Don't miss out on this wonderful opportunity of becoming *A LEADER OF INFLUENCE*
